DETAILED ACTION

Drawings

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, a circuit including “a second driving means for output the potential of the second external power or the ground potential to a second node according to the control signal and an output signal of the second input means” recited in claim 4; a circuit including “an NMOS transistor for keeping the potential of an input terminal of the first driving means to be the ground potential according to the control signal” recited in claim 9; and a circuit including “an NMOS transistor for keeping the potential of an input terminal of the second driving means to be the ground potential according to the control signal” recited in claim 10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet”

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Objections

2. Claims 1-14 are objected to because of the following informalities:

Claim 1, line 3, "the power" should be changed to --the first external power--.

Claim 1, line 5, "keeping the" should be changed to --having a--.

Claim 1, line 8, "keeping" should be changed to --having--.

Claims 2-12 are objected to because they include the informalities of claim 1.

Claim 4, line 4, "as an input" should be deleted.

Claim 4, line 6, "as an input" should be deleted.

Claim 4, line 8, "the signal of" should be deleted.

Claim 4, line 9, "the output" should be changed to --an output--.

Claim 4, line 12, "the signal of" should be deleted.

Claim 4, line 13, "the output" should be changed to --an output--.

Claim 5, line 5, "for" should be changed to --of--.

Claim 6, line 4, "for" should be changed to --of--.

Claim 7, line 3, --an output signal having-- should be inserted before "the potential" to provide antecedent basis for the output signal of the level shifter on the last line of the claim.

Claim 7, line 4, "the signal of" should be deleted.

Claim 7, line 6, "a NMOS" should be changed to --an NMOS--.

Claim 7, line 11, "the signal of" should be deleted.

Claim 7, line 12, "first" should be deleted to provide proper antecedent basis for the level shifter (see line 3 of claim 7).

Claim 8, line 4, "the signal of" should be deleted.

Claim 8, line 7, "the signal of" should be deleted.

Claim 9, line 1-2, "a NMOS" should be changed to --an NMOS--.

Claim 9, line 2, "the input" should be changed to --an input--.

Claim 10, line 1-2, "a NMOS" should be changed to --an NMOS--.

Claim 10, line 2, "the input" should be changed to --an input--.

Claim 11, line 3, --an output signal having-- should be inserted before "the potential" to provide antecedent basis for the output signal of the inverter on the last line of the claim.

Claim 11, line 4, "the signal of" should be deleted.

Claim 12, line 2, "a NMOS" should be changed to --an NMOS--.

Claim 13, line 4, "the power" should be changed to --the first external power--.

Claim 13, line 6, "keeping the" should be changed to --having a--.

Claim 13, line 7, "the ground" should be changed to --a ground--.

Claim 13, line 10, "keeping" should be changed to --having--.

Claim 14, line 4, "the power" should be changed to --the first external power--.

Claim 14, line 7, "as an input" should be deleted.

Claim 14, line 9, "as an input" should be deleted.

Claim 14, line 10, "the potential" should be changed to --a potential--.

Claim 14, line 11, "a signal of" should be deleted.

Claim 14, line 12, "the output" should be changed to --a output--.

Art Unit: 2816

Claim 14, line 16, "a signal of" should be deleted.

Claim 14, line 17, "the output" should be changed to --a output--.

Claim 14, line 26, "a signal of" should be deleted.

Appropriate correction to the above formalities is required.

Allowable Subject Matter

3. Claims 1-14 presently would be allowed if amend to overcome the above informalities.

Note that claims 4, 9 and 10 would only be allowed if corrected of the drawings is submitted to support for the limitations of claims 4, 9 and 10.
